October is Cyber Security Awareness Month!

September 30, 2016

Since 2003 the National Cyber Security Alliance and the U.S. Department of Homeland Security have partnered to promote Cybersecurity awareness each October. National Cyber Security Awareness Month was created to empower everyone online to be safer, more secure and better able to protect their personal information. As you can imagine, cyber security is a common topic at RightSize Solutions and we are happy to do our part in promoting it. Throughout October, RightSize will touch on weekly themes put out by the National Cyber Security Alliance, and provide other tips and resources for your benefit.

Check out our first post here: **Week 1: October 3-7, 2016 – Every Day Steps Towards Online Safety with Stop.Think.Connect.™**

You can check out the campaign's homepage here, and a list of helpful resources from the Alliance here.
