

Week 2: Cyber from the Break Room to the Board Room

October 10, 2016

Cyber from the Break Room to the Board Room for RIAs

Cyber security doesn't just happen. It doesn't just fall from the sky. It has to be planned, developed and managed. Most importantly, it has to be *companywide*. Our RIA clients have great success with cyber security because in addition to tools, systems and software, we also help them create a winning culture of knowledge, attention and awareness to issues surrounding online security.

This starts at the top down.

So this week's [National Cyber Security Awareness Month](#) theme, *Cyber from the Break Room to the Board Room*, really resonates with us. Even with the best security measures out there, people are also required to hold up their end of the deal. Culture makes the difference between secure and extremely secure.

Do you want your firm to be *extremely* secure? We do too. Here are some tips for creating a culture of cyber security at your RIA—from the break room to the board room and everywhere in between:

- [Does your RIA have a culture of security?](#)
- [9 Ways to Create a Culture of Cybersecurity](#)

Next week's theme is: "Recognizing and Combating Cybercrime for RIAs." Stay tuned!

Need our expert opinion on your firm's cyber security systems *and* culture? [Let's talk about how we can help.](#)
